Notify Me keyword alerts

Tell LyPinn what you do. Get pinged the moment
a neighbour drops a matching card in your 3 km
radius.

1. Add your keywords

Whatever you do — plumber, AC repair, math tutor, baker, mover — list it. A few words is enough.

2. Someone drops a matching card

The instant a neighbour posts a card whose text matches any of your keywords, LyPinn pings you — usually before anyone else has even seen the card.

Real-world keyword recipes

Copy these into your Notify Me settings. The looser the keyword, the more matches — start broad, narrow later.

Plumbers · Electricians

Why it's a game changer

First to know

Beat the rush — the second a neighbour types your keyword, you're notified. No scrolling a busy feed, no FOMO.

Hyper-local jobs only

Matches live within your 3 km radius (configurable). You won't get pinged for work 30 km away that you can't reach.

Quiet hours respected

Set a do-not-disturb window. Your phone stays calm overnight; pending matches wait for the morning.
